4. Macroeconomic and Industry Overview:

Macroeconomic Overview

After averaging close to 8% for several quarters through to Q1FY19, Indian economic activity as reflected in GDP growth, lost speed for a significant period of time. The inherent economic sluggishness, evidenced by stasis in gross fixed capital formation, anaemic credit growth, and

successively lower PMI numbers, was exacerbated dramatically by the COVID 19 pandemic which had India firmly in its clutches as we opened FY21.

FY20 GDP growth at 4.0% Y-o-Y is widely expected to decline to a negative figure of -8% for FY21 by all accounts. A year that commenced with a near total shutdown of the economy in Q1 recovered in several different ways over the next 3 quarters. As seen in the past 2-3 years, Government spending was once again thought to be the saviour of the GDP growth headline figure. India's economic growth was largely driven by consumption prior to that, but both investments and exports, the two important growth engines have struggled due to the confluence of multiple factors. However, the challenge at hand was to address the societal impact of the pandemic, which was weakening income growth with each passing day.

In response, there were a number of measures needed urgently from the Union Government. Most countries immediately budgeted additional COVID spends of 3-22% of GDP, with emphasis on revenue measures like partial wage payments and loan guarantees for SMEs, cash transfers, deferment of tax payments, etc. It was widely expected that India would follow this approach, within its means of course, since fiscal deficit as well as public debt for India are higher than most large developing economies' and aggressive spending could trigger a sovereign rating downgrade. Despite obvious problems, the GoI was inexplicably cautious – the packages announced amount to only ~1-2% of GDP with no emphasis on improving public health infra and little support to small businesses.

Instead, the chosen response was anchored in monetary policy, and the temporary softening of some banking regulations, with the RBI playing a commanding role in being the calm voice in roiled markets. The central bank announced a slew of measures, such as moratorium for loans, repo rate cut, several other liquidity measures – Targeted Long-Term Repo Operations (TLTRO), CRR cut, MSF raise Refinancing facility for NABARD, SIDBI, NHB. Various regulatory reliefs pertaining to asset classification norms, lowering LCR requirements, extension of resolution timelines, etc.

As FY22 opens with a return to panic on account of a severely damaging second wave of COVID, it remains to be seen how much of the normalcy – which had been partially restored – is sustainable. It will take a coordinated effort at a large-scale vaccination rollout to allay fears of a more severe impact on lives and livelihoods than we have already seen. India is well known for conducting the most complex national election exercise ever conceived, it is with hope that this aptitude with planning and logistics will save the day for the country in FY22.

Industry Overview –

With the morbid COVID backdrop, the NBFC industry was highly concerned about a continuation of the gloomy scenario which began with the spectacular collapse of IL&FS in Sep 2018. Different segments within the sector were affected in varying ways when viewed at from the perspectives of liquidity, asset quality and potential for future growth. Small and mid-size entities were seeing disproportionate impact mainly on account of liquidity concerns. e.g. MFIs which can borrow from banks were relatively better off. The entire focus of market participants had shifted to maintaining liquidity at the cost of growth. Industry-wide consensus was to remain cautious and wait out H1 FY21.

However, the significant improvement in liquidity conditions across tiers of players was an unexpected tailwind. Where only large players/players with strong parentage could access TLTRO and are able to raise long term funds at attractive rates, the trickle-down economics of flooding the banks with liquidity ensured most NBFCs were able to access funds for growth on a timely basis.

At the same time, retail credit growth – consistently the vanguard of industry growth – is likely set to moderate due to job/salary cuts, deferred discretionary demand and overall resurgence of COVID in March 2021. Asset quality remains in check, but a large part of this is likely window dressed, as regulatory forbearances, moratoriums, and restructuring of advances have played a significant role in the optics of NBFC numbers. As capital markets remain buoyant, FY22 will be a unique year to look forward to, starting as it has with the dichotomy of a flying equity market and thousands of COVID tragedies each day.

IIFL Wealth Prime Limited has transferred a total of INR 21,047,106 (including INR 1,13,95,781 from FY 20) as commitment towards ongoing projects in the thematic areas mentioned in the tables 8 (b) and 9 (b) to be undertaken by IIFLW CSR Foundation. The mode of implementation is either by itself or through sub-grants to other credible, experienced implementing agencies. The expected duration of utilisation of these grants is over the next 36 months by March 31st, 2024. IIFL Wealth Finance Limited's Board will be monitoring the implementation of the ongoing projects with reference to the approved timelines and allocation until project completion.

In case these funds have not been utilised by March 31st, 2024, the IIFLW CSR Foundation will transfer the funds to any fund specified under Schedule VII as per section 135(6).

This year, IIFL Wealth Prime Limited has reported 100% of ongoing projects' funds as amount spent, despite being ongoing projects, as the money has been transferred to the implementing agency, IIFLW CSR Foundation.

Feedback to the MCA is to include a provision to mention the funds that have been spent by the company but not utilised by the implementing agency as part of ongoing project expenses.

INDEPENDENT AUDITOR'S REPORT

To The Members of

IIFL Wealth Prime Limited (Formerly IIFL Wealth Finance Limited)

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of IIFL Wealth Prime Limited (Formerly IIFL Wealth Finance Limited) ("the Company"), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Impairment of carrying value of loans and advances:</p> <p>The Company exercises significant judgement using subjective assumptions over both when and how much to record as loan impairment and estimation of the amount of the impairment provision for loans and advances. This includes assessment of macro-economic overlays on account of change in the economic environment including the COVID 19 pandemic.</p> <p>Since the loans and advances form a major portion of the Company's assets, and due to the significance of the judgments used in classifying loans and advances into various stages as stipulated in Ind AS 109 and determining related impairment provision requirements, this is considered to be the area that had a greater focus of our overall audit of the Company and a key audit matter.</p> <p>As at March 31, 2021, the Company's gross loans and advances amounted to Rs. 37,532.42 million and the impairment provisions amounted to Rs. 338.16 million.</p>	<p>Principal audit procedures performed:</p> <ul style="list-style-type: none"> • We read the Company's Expected Credit Loss policy as per Ind AS 109; • We gained understanding of the Company's key credit processes comprising granting, booking, monitoring, collections, staging and provisioning and tested the operating effectiveness of key controls over these processes; • We tested the completeness of loans and advances included in the Expected Credit Loss calculations as of March 31, 2021; • Where relevant, we used Information System specialists to gain comfort on data integrity and completeness of the aging report; • For a sample of exposures, we tested the appropriateness of staging into Stage 1, 2 and 3; • For provision against exposures, we obtained an understanding of the Company's provisioning methodology, consistency of various inputs and assumptions used for Probability of Default(PD) and Loss Given Default (LGD), the reasonableness of the underlying assumptions and the sufficiency and appropriateness of the data used by the management; • Tested disclosures included in the Ind AS financial statements in respect of expected credit losses;

<p>2</p>	<p>Information Technology and General Controls</p> <p>The Company is highly dependent on technology due to significant number of transactions that are processed electronically daily. Accordingly, our audit procedures have a focus on IT systems and controls due to the pervasive nature and complexity of the IT environment, the large volume of transactions processed daily and the reliance on automated and IT dependent manual controls. Our areas of audit focus included Access Security (including controls over privileged access), Program Change controls and Network Operations.</p> <p>Absence of segregation of duties may result in a risk of intended or unintended manipulation of data that could have a material effect on the completeness and accuracy of the financial statements.</p> <p>Due to the pervasive nature and use of IT systems, we continued to assess the risk of a material misstatement arising from access to technology as a significant matter for the audit.</p>	<p>Principal audit procedures performed:</p> <p>For the key IT systems used to prepare accounting and financial information:</p> <ul style="list-style-type: none"> • We obtained an understanding of the Company's business IT environment and key changes if any, during the audit period that may be relevant to the audit. Furthermore, we conducted a risk assessment and identified IT applications, databases and operating systems that are relevant to our audits; • We tested the design, implementation and operating effectiveness of the Company's General IT controls over the information systems that are critical to financial reporting. This included evaluation of Company's controls to ensure that access was provided / modified based on duly approved requests, access for exit cases was revoked in a timely manner and access of all users was re-certified during the period of audit. Further, controls related to program change were evaluated to verify whether the changes were approved, tested in an environment that was segregated from production and moved to production by appropriate users; • We tested the controls to ensure that segregation of duties was monitored and conflicting access was either removed or mapped to mitigating controls, which were documented and tested; • We tested the controls over network segmentation, restriction of remote access to the Company's network, controls over firewall configurations and mechanisms implemented by the Company to prevent, detect and respond to network security incidents; • We also tested automated business cycle controls and report logic for system generated reports relevant to the audit, for completeness and accuracy.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report etc., but does not include the financial statements and our auditor's report thereon. The Directors report is expected to be made available to us after the date of this auditor's report.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read the Directors' report including Annexures to Directors' Report etc, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report, to the extent applicable that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of accounts.

d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impacts financial position;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of IIFL Wealth Prime Limited (Formerly IIFL Wealth Finance Limited) ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of Financial Statements for the year ended March 31, 2021

Note 1. Corporate Information:

IIFL Wealth Prime Limited (the "Company") is a public limited company incorporated under the Companies Act, 1956 and is a wholly owned subsidiary of IIFL Wealth Management Limited. The Company is a systemically important non-deposit taking Non-Banking Financial Company ("NBFC ND-SI") registered with the Reserve Bank of India (RBI) under section 45-IA of the RBI Act, 1934 having a valid certificate of registration no. B-13.00361 dated March 18, 1998, and is primarily engaged in the financing and investing activities. The Company offers broad suite of financial products that includes loan against securities, capital market / IPO financing, loan against property, etc. catering to the financing needs of corporate and high net worth customers. The Company also acts as wealth manager and provides services relating to financial products distribution by mobilizing funds and assets of various classes of investors including High Net worth Individuals.

Note 2 – Significant Accounting Policies,

a) Statement of Compliance:

The Company's financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and amendments thereof issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 of the Companies Act, 2013. In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied except where compliance with other statutory promulgations require a different treatment.

b) These financials statements have been approved for issue by the Board of Directors of the Company at their meeting held on,2021

c) Revenue recognition

Revenue is recognised when the promised goods and services are transferred to the customer i.e. when performance obligations are satisfied. Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties.

- Lending / Investments related Income
 - Interest income on investments and loans is accrued on a time basis by reference to the principal outstanding and the effective interest rate including interest on investments classified as fair value through profit or loss or fair value through other comprehensive income. Interest receivable on customer dues is recognised as income in the Statement of Profit and Loss on accrual basis provided there is no uncertainty towards its realisation.
 - Dividend income is accounted in the period in which the right to receive the same is established.
- Fees and commission relating to Distribution Services: Fees on distribution services are recognized at a point in time when the service obligations are completed and when the terms of contracts are fulfilled.
- Other items of income including fees and commissions are accounted as and when the service obligations are completed and right to receive such income arises and it is probable that the economic benefits will flow and the amount of income can be measured reliably.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

d) Goodwill on acquisition

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed, measured in accordance with Ind AS 103 – Business Combinations.

Goodwill is considered to have indefinite useful life and hence is not subject to amortization but tested for impairment at least annually. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired in a business combination, is from the acquisition date, allocated to each of the company's cash generating units (CGUs) that are expected to benefit from the combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Each CGU or a combination of CGUs to which goodwill is so allocated represents the lowest level at which goodwill is monitored for internal management purpose and it is not larger than an operating segment of the Company.

A CGU to which goodwill is allocated is tested for impairment annually, and whenever there is an indication that the CGU may be impaired, by comparing the carrying amount of the CGU, including the goodwill, with the recoverable amount of the CGU. If the recoverable amount of the CGU exceeds the carrying amount of the CGU, the CGU and the goodwill allocated to that CGU is regarded as not impaired. If the carrying amount of the CGU exceeds the recoverable amount of the CGU, the Company recognises an impairment loss by first reducing the carrying amount of any goodwill allocated to the CGU and then to other assets of the CGU pro-rata based on the carrying amount of each asset in the CGU. Any impairment loss on goodwill is recognised in the Statement of Profit and Loss. An impairment loss recognised on goodwill is not reversed in subsequent periods. On disposal of a CGU to which goodwill is allocated, the goodwill associated with the disposed CGU is included in the carrying amount of the CGU when determining the gain or loss on disposal.

e) Property, plant and equipment

Measurement at recognition:

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The Company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item. The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Expenses related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant and equipment if the recognition criteria are met.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the Balance Sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each Balance Sheet date are disclosed as Other Non-Financial Assets.

Depreciation:

Depreciation on each item of property, plant and equipment is provided using the Straight-Line Method based on the useful lives of the assets as estimated by the management and is charged to the Statement of Profit and Loss. Significant components of assets identified separately pursuant to the requirements under Schedule II of the Companies Act, 2013 are depreciated separately over their useful life.

Freehold land is not depreciated. Leasehold improvements are amortized over the period of lease. Individual assets / group of similar assets costing up to Rs. 5,000 has been depreciated in full in the year of purchase.

Estimated useful life of the assets is as under:

Class of assets	Useful life in years
Computers*	3
Electrical Equipment*	5
Office equipment	5
Furniture and fixtures* #	5
Air conditioners*	5

* For these class of assets, based on internal assessment carried out, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Furniture and fixtures includes leasehold improvements, which is depreciated on a straight-line basis over the period of lease

The useful lives, residual values of each part of an item of property, plant and equipment and the depreciation methods are reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

f) Intangible assets

Measurement at recognition:

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets arising on acquisition of business are measured at fair value as at date of acquisition. . Following initial recognition, intangible assets with finite useful life are carried at cost less accumulated amortization and accumulated impairment loss, if any. Intangible assets with indefinite useful lives, that are acquired separately, are carried at cost/fair value at the date of acquisition less accumulated impairment loss, if any.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

Amortization:

Intangible Assets with finite lives are amortized on a Straight Line basis over the estimated useful economic life. The amortization expense on intangible assets with finite lives is recognized in the Statement of Profit and Loss. The amortization period and the amortization method for an intangible asset with finite useful life is reviewed at the end of each financial year. If any of these expectations differ from previous estimates, such change is accounted for as a change in an accounting estimate.

Estimated useful economic life of the assets is as under:

Class of assets	Useful life in years
Software	3-5
Customer Relationships	20

Derecognition:

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an intangible asset is measured as the difference between the net disposal proceeds and the carrying amount of the intangible asset and is recognized in the Statement of Profit and Loss when the asset is derecognized.

g) Impairment

Assets that have an indefinite useful life, such as goodwill, are not subject to amortization and are tested for impairment annually and whenever there is an indication that the asset may be impaired. Assets that are subject to depreciation and amortization are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal. Impairment losses, if any, are recognized in the Statement of Profit and Loss and included in depreciation and amortization expenses.

Impairment losses are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

(FORMERLY IIFL WEALTH FINANCE LIMITED)**

h) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

• **Financial assets**

Initial recognition and measurement:

The Company recognizes a financial asset in its Balance Sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial assets. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the Company's business model for managing the financial asset and the contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- i. Financial assets measured at amortized cost
- ii. Financial assets measured at fair value through other comprehensive income (FVTOCI)
- iii. Financial assets measured at fair value through profit or loss (FVTPL)

i. Financial assets measured at amortized cost:

A financial asset is measured at the amortized cost if both the following conditions are met:

- The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to Cash and Bank balances, Trade receivables, Loans and Other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method.

ii. Financial assets measured at FVTOCI:

A financial asset is measured at FVTOCI if both of the following conditions are met:

- The Company's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the above category, income by way of interest and dividend, provision for impairment are recognized in the statement of profit and loss and changes in fair value (other than on account of above income or expense) are recognized in other comprehensive income and accumulated in other equity. On disposal of such debt instruments at FVTOCI financial assets, the cumulative gain or loss previously accumulated in other equity is reclassified to Statement of Profit and Loss.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

iii. Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as mentioned above. This is a residual category applied to all other investments of the Company excluding investments in associate. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Derecognition:

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's Balance Sheet) when any of the following occurs:

- The contractual rights to cash flows from the financial asset expires;
- The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- The Company neither transfers nor retains, substantially all risk and rewards of ownership, and does not retain control over the financial asset.

On Derecognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

Impairment of financial assets:

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not measured at FVTPL. Expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

- Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.
- The Company measures the loss allowance on financial assets at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for that financial asset at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the lifetime expected credit losses and represent cash shortfalls that will result if default occurs within the 12 months weighted by the probability of default after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

- When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables and financial assets arising from transactions with in the scope of Ind AS 115 the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and forward-looking information.

The Company writes off a financial asset when there is information indicating that the obligor is in severe financial difficulty and there is no realistic prospect of recovery.

- **Financial Liabilities**

Initial recognition and measurement:

The Company recognizes a financial liability in its Balance Sheet when it becomes party to the contractual provisions of the instrument. Having regards to the terms and structure of issuance, Financial Liabilities are categorized as follows:

- (i) recognized at amortised costs
- (ii) recognized at fair value through profit and loss (FVTPL) including the embedded derivative component if any, which is not separated.
- (iii) where there is an embedded derivative as part of the financial liability, such embedded derivative is separated and recorded at fair value and the remaining component is categorized as on amortised costs.

Subsequent measurement:

(i) All financial liabilities of the Company are categorized as subsequently measured at amortized cost are subsequently measured using the effective interest method.

(ii) All financial liabilities of the Company are categorized at fair value are subsequently measured at fair value through profit and loss statement.

(iii) For derivatives embedded in the liability, the embedded derivative is subsequently measured at fair value through profit and loss and the liability is subsequently measured at amortised cost using the effective interest method.

Derecognition: A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

i) Derivative financial instruments

The Company enters into derivative financial contracts, which are initially recognized at fair value at the date the contracts are entered into and subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in the statement of profit and loss unless the derivative is designated and effective as a hedging instrument

In a financial instrument involving embedded derivative, which is separated from the host contract, such embedded derivative component is accounted separately from the underlying host contract and is initially recognized at fair value and is subsequently remeasured at fair value at each reporting period and the resulting gain or loss is recognized in the statement of profit and loss unless the derivative is designated and effective as a hedging instrument.

j) Fair Value

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

k) Measurement of foreign currency items at reporting date

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Nonmonetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of Profit and Loss.

l) Income Taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws. Current tax is measured using tax rates that have been enacted or substantively enacted by the end of reporting period.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

Deferred tax:

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income tax Act, 1961. Deferred tax liabilities are generally recognized for all taxable temporary differences. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences that arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/expense are recognized in Other Comprehensive Income.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

m) Provisions and Contingencies

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

n) Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less.

A handwritten signature or set of initials, possibly 'M', written in black ink.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

o) Employee Benefits

Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-Employment Benefits:

(I) Defined contribution plans:

Defined contribution plans are post-employment benefit plans under which the Company pays fixed contributions into state managed retirement benefit schemes and will have no legal or constructive obligation to pay further contributions, if any, if the state managed funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current and preceding financial years. The Company's contributions to defined contribution plans are recognised in the Statement of Profit and Loss in the financial year to which they relate. The Company operates defined contribution plans pertaining to Employee State Insurance Scheme and Government administered Pension Fund Scheme for all applicable employees and the Company also operates Defined Contribution Plans pertaining to Provident Fund Scheme.

Recognition and measurement of defined contribution plans: The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

II. Defined benefit plans:

Gratuity is post-employment benefit and is in the nature of defined benefit plan. The liability recognized in the Balance Sheet in respect of gratuity is the present value of defined benefit obligation at the Balance Sheet date together with the adjustments for unrecognized actuarial gain or losses and the past service costs. The defined benefit obligation is calculated at or near the Balance Sheet date by an independent actuary using the projected unit credit method.

Recognition and measurement of defined benefit plans:

The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if applicable. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

All expenses represented by current service cost, past service cost if any and net interest on the defined benefit liability (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

p) Lease accounting

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company considers whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. Where appropriate, the right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

**IIFL WEALTH PRIME LIMITED
(FORMERLY IIFL WEALTH FINANCE LIMITED)**

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

As a lessor

Leases for which the Company is a lessor is classified as finance or operating leases. When the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. The Company recognizes income on operating leases based on the contractual arrangements.

Critical accounting estimate and judgement

1. Determination of lease term

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised

2. Discount rate

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

q) Borrowing Cost

Borrowing cost includes interest, amortization of transaction costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

r) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

s) Earnings Per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

t) KEY ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

- Property, Plant and Equipment and Intangible assets

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The lives are based on historical experience with similar assets and are based on changes in technical or commercial obsolescence.

- Defined Benefit Obligation

The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

- Fair value measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

- Expected Credit Loss

The provision for expected credit loss involves estimating the probability of default and loss given default based on the past experience and other factors.

Note- The above includes impact of ` 22.73 million in Statement of Profit and Loss due to change in income tax rates during the year ended March 31, 2020 (Refer Note below)

The Government of India vide Ordinance No. 15 of 2019 dated September 20, 2019 amended the income tax provisions by inserting section 115BAA. As per the amended provisions, the Company has opted to pay tax at rate of 22% plus applicable surcharge and cess subject to the conditions mentioned under the amended provisions and recognised the effect of change by revising the annual effective income tax rate. Due to reduced tax rate, the Company has re-measured its Deferred Tax Assets and Liabilities as at April 1, 2019 and the impact of this change has been fully recognised in the Statement of Profit and Loss Account under "Tax expense" for the year ended March 31, 2020.

Notes forming part of Financial Statements for the Year ended March 31, 2021

Note 36. The Company operates from and uses the premises, infrastructure and other facilities and services as provided to it by its holding company/group companies, which are termed as 'Shared Services'. Hitherto, such shared services consisting of administrative and other revenue expenses paid for by the Company were identified and recovered/recoverable from the Company based on reasonable management estimates, which are constantly refined in the light of additional knowledge gained relevant to such estimation. These expenses are recovered on an actual basis and the estimates are used only where actual expenses were difficult to determine.

Note 37. Undisbursed Sanctioned Loans

As on the balance sheet date there were undisbursed sanctioned loans of ` 20,432.04 million/- (Previous Year ` 32,860.64 million/-). These undisbursed sanctioned amounts are cancellable at the option of the Company.

Note 38. Corporate Social Responsibility

During the year, the Company has spent its entire liability of ` 43.38 million as required to be spent as per section 135 of the Companies Act 2013 in respect of Corporate Social Responsibility (CSR). The Company is committed to supporting development of the country by contributing in achieving sustainable development goals and all its activities are directed towards this. Going forward these projects will be consolidated and scaled to achieve a larger and deeper impact. The key focus areas include education and healthcare including COVID Relief. (Refer Note 40 on Related Party Disclosures)

Note 39. Segment Reporting

Products offered by IIFL Wealth Finance Limited (the Company), i.e. lending, credit solutions etc. forms part of the Wealth Management segment. The distribution business acquired by the Company by way of business transfer also forms key part of the same Cash Generating Unit (CGU). The credit solutions and other products of IIFL Wealth Finance are principally offered to the clients, who form part of the Wealth Management CGU.

In view of the above, in the opinion of the management, there is only one reportable business segment as envisaged by Ind AS 108 'Operating Segments', as prescribed under section 133 of the Companies Act, 2013(the "Act"). Accordingly, no separate disclosure for segment reporting is required to be made in the financial statements of the Company. Secondary segment based on geography has not been presented as the Company operates primarily in India and the Company perceives that there is no significant difference in its risk and returns in operating from different geographic areas within India.

Financial Risk Management
41A.1. Credit Risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk assessment on various components is described below:

1) Lending operations – Loans

The Lending Operations of the Company has a well-defined framework within which credit risk is assumed, managed and monitored. Credit risk management function closely oversees management and control of credit risks and associated operational risks. The credit proposals are evaluated having regard to specified prudent exposure limits and approved by the appropriate authority, approved by the Board of Directors (the Board) of the entity engaged in lending business. The risk management policies including exposure limits are defined and reviewed along with the Board.

The Company sanctions and monitors the loan based on underlying security offered by borrower. The Company has not implemented the system for credit grading of borrowers since most of its lendings are against liquid collaterals. In order to manage credit risk, Loan to Value (LTV) ratio is decided/re-adjusted at the time of sanction and on ongoing basis at the time of monitoring of loan.

The carrying amount of Loans arising from lending business which may be subject to credit risk are as per table below: (₹ in Mn)

Loans to customers		Apr 2020- Mar 2021

In addition to loans from lending business, the company has outstanding loans under CBLO arrangement, staff and Holding company/Fellow subsidiaries. The company has not made any provision on ECL as credit risk is considered insignificant

For financial assets, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that the modification does not result in cash flows that are substantially different (thereby not resulting into derecognition), the modification gain /loss based on discounted cash flows on it is as below:

(₹ in Mn)		
Particulars	As at 31st March 2021	As at 31st March 2020
Value of modified assets at the time of modification	792.93	-
Value of modified assets outstanding at end of year	802.06	-
Modification gain/ loss	85.13	-

Credit concentration and gradation

The company provides loans mainly to High Net worth Individuals (HNIs) against securities/collaterals in the form of financial instruments (Loans against Securities - LAS). The Company does not have a significant concentration with regard to single/group borrower and industry.

The Company sanctions and monitors these loans based on underlying securities. In order to manage credit risk Loan to Value (representing value of securities/collateral against the loans outstanding) is decided/re-adjusted at the time of sanction and on ongoing basis as a part of monitoring of loans.

Note 41. Disclosure Pursuant to Ind AS 107 "Financial Instruments: Disclosures"

2) Trade receivables, Other receivables and Other Financial Assets

The Group's trade receivables primarily include receivables from mutual funds, alternative Investment funds, customers under Portfolio Mnaagement scheme and Advisory services arrangements. The Group has made lifetime expected credit loss provision based on provision matrix which takes into account historical experience in collection and credit losses.
Credit Risk on Other Financial assets is considered insignificant considering the nature of such assets and absence of counterparty risk.

3) Others

In addition to the above, Balances and deposits with banks, Investments in bonds, debt securities and in units of funds and Derivative financial instruments also have exposure to credit risk. Credit risk on Balances and deposits with banks is considered to be insignificant.

41B. Liquidity Risk

Liquidity risk refers to the risk that the Company may not be able to meet its short-term financial obligations. The Company manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of credit lines. Further, The Company has well defined Asset Liability Management (ALM) Framework with an appropriate organizational structure to regularly monitor and manage maturity profiles of financial assets and financial liabilities including debt financing plans, cash and cash equivalent instruments to ensure liquidity. The Company seeks to maintain flexibility in funding mix by way of sourcing the funds through money markets, debt markets and banks to meet its business and liquidity requirements.

The following table shows the maturity profile of Financial liabilities:

(₹ in Mn)

41C. Market Risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in futures cash flows that may result from a change in the price of a financial instrument as explained below:

41C.1 Currency Risk

The Company does not have any transactions in foreign currency and hence it is not exposed to Foreign currency risk.

41C.2 Interest rate risk

The Company has considered interest rate risk on financial assets and liabilities accounted for on amortised cost basis. The Company's exposure to changes in interest rates relates primarily to the Company's outstanding floating rate debt included in borrowings/debt securities.

The carrying amount of floating rate liabilities and related interest rate sensitivity is as below:

Particulars	(₹ in Mn)	
	As at 31st March 2021	As at 31st March 2020
Floating Rate Liabilities (Debt Securities and Borrowings)	6,450.25	5,049.18

A hypothetical 0.25% shift in underlying benchmark rates will have the below impact :

Impact on Profit and Loss after tax and equity	2020-21	2019-20
Increase of 0.25%	(12.07)	(9.45)
Decrease of 0.25% basis point	12.07	9.45

The loans arising from lending operations generally provide for reset of the interest rates based on its Prime lending Rate (PLR). The Company aims to reset PLR on its loan book on the basis of, inter-alia, actualized /expected change in its overall borrowing costs. This enables the Company to mitigate interest risk on revision/ repricing of interest bearing liabilities. As such the Company does not carry any interest rate risk on account of the above. As required under applicable accounting standard, impact of hypothetical change in PLR on its loan books by 0.25% would be as follows:

Particulars	(₹ in Mn)	
	As at 31st March 2021	As at 31st March 2020
Loans	37,030.08	36,469.11

Impact on Profit and Loss after tax and equity	2020-21	2019-20
Increase of 0.25%	69.28	68.23
Decrease of 0.25%	(69.28)	(68.23)

Note 41. Disclosure Pursuant to Ind AS 107 "Financial Instruments: Disclosures"

41C3. Other Price Risk

Other price risk is related to the change in market reference price of the derivative financial instruments, investments and debt securities which are fair valued through statement of Profit and loss and exposes the Company to price risks.

The carrying amount of financial assets and liabilities subject to price risk is as below:

Particulars	As at 31st March 2021	As at 31st March 2020
(₹ in Mn)		
Financial Assets		
Derivative financial instruments	1,518.97	1,315.86
Investments	22,026.57	62,629.03
	23,545.54	63,944.89
Financial Liabilities		
Derivative financial instruments	2,207.00	2,488.37
Debt securities	7,776.84	23,196.23
	9,983.84	25,684.60

The sensitivity analysis is done on the basis of a hypothetical 1% change in value of investments in alternative investment funds, and other investments and derivatives assets and liabilities that are equity linked. In respect of investments and borrowings that are interest rate sensitive, the impact is computed on the basis of a hypothetical change 0.25% p.a in the interest rate over the duration of underlying instruments

Below is the sensitivity analysis for the year :

	2020-21	2019-20
Increase		
Impact on Profit and Loss after tax	62.14	338.88
Impact on Equity	62.14	338.88
Decrease		
Impact on Profit and Loss after tax	(62.14)	(338.88)
Impact on Equity	(62.14)	(338.88)

41D. Capital Management

The Company's capital management is intended to create value for shareholders. The assessment of Capital level and requirements are assessed having regard to long-and short term strategies of the Company and regulatory capital requirements of its businesses and constituent entities. The Company maintains at all times sufficient capital comprising both of Tier I and Tier II capital as required under the prudential norms prescribed by the Reserve Bank of India. Capital adequacy as on March 31, 2021 was 23.11% comprising of Tier I was 22.06% and Tier II was 1.05% (please refer to Note 1. Disclosure as required under Annexure XIV of RBI Directions)

41E.1. Fair values of financial instruments

The Company measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments. This include NAVs of the schemes of mutual funds.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The Company uses widely recognised valuation methods to determine the fair value of common and simple financial instruments, such as interest rate swaps, options, which use only observable market data as far as practicable. Observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded derivatives and simple OTC derivatives such as interest rate swaps.

41E. 1a. Financial instruments measured at fair value – Fair value hierarchy

The following table analyses financial instruments measured at fair value at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position. The fair values include any deferred differences between the transaction price and the fair value on initial recognition when the fair value is based on a valuation technique that uses unobservable inputs.

Note 44. Subsequent Events

There were no subsequent events from the date of financial statements till the date of adoption of accounts.

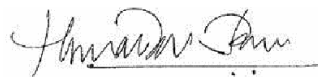

Note 45. The spread of the COVID-19 pandemic including the second wave across the globe and India contributed to significant volatility in global and Indian financial markets and a significant decrease in global and local economic activities. The ultimate duration and extent of the pandemic cannot reasonably be assessed and consequently the full impact on the business due to a COVID-19 related economic slowdown, changes in client sentiment and investment behaviour are currently unknown. The Company has continued to engage with clients and employees through the business continuity measures put in place and its technology platform with limited disruption. Further, the Company has assessed that it expects to navigate the currently prevailing uncertain economic conditions due to the more severe Second wave based on its business model, profile of assets and liabilities and availability of liquidity and capital at its disposal. However, the extent to which the COVID-19 pandemic will ultimately impact the Company's operations will depend on currently uncertain future developments. Based on its current assessment and the Board approved policy for provisioning the Company does not envisage the need for any additional Expected Credit Loss (ECL) provision on the loans on account of the pandemic. However, ECL provisions required may differ from those estimated currently if situation worsens such future impact will be recognised prospectively.

Liquidity Coverage Ratio (LCR) aims to ensure that NBFC's maintains an adequate level of unencumbered High Quality Liquidity Asset (HQLAs) that can be converted into cash to meet liquidity needs for a 30 calendar day time horizon under a significantly severe liquidity stress scenario. The Company has robust liquidity risk management framework in place that ensures sufficient liquidity including a cushion of unencumbered, high quality liquid assets, to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The Company has been able to manage LCR quite higher than the minimum requirement of 50%. HQLA comprises of unencumbered Bank Balances, Cash in Hand, Liquid Investments after appropriate haircut. The Company maintains sufficient balance of Cash and Bank Balance and liquid Investments which can be easily liquidated in times of stress. Liquidity Coverage Ratio results drive by inflow of next 30 days receivable on loans and advances and corresponding outflow over the next 30 days towards borrowings and other liabilities.
